

DOTWConnect Penalty Functionality

- ➔ Allows a user to adjust or zero out (if needed) the penalty fees, provided the booking is already past the deadline.
- ➔ Functionality is available for confirmed bookings (past deadline) and cancelled booking.

How to adjust the amendment/cancellation penalties via Penalty functionality?

Open the full booking summary and access the Amend Offline workflow.

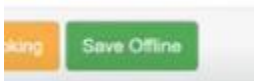

Scroll down until you see the Penalties section/table. There are two possible charges you will see here: Amendment Charge and Cancellation Charge.

This box will have four amounts/penalties that can be amended:

- Supplier penalty
- Commission amount *(if applicable)*
Note: Commission amount should not be bigger than the customer penalty.
- Network amount
- Customer penalty

A	B	C	D
Supplier penalty	Commission amount	Network amount	Customer penalty
1.5900	4.5468	1.5900	104.9554
USD	USD	USD	USD

Depending on the penalty/amounts that you would need to amend, proceed to adjust the amounts in the applicable boxes in the Penalty section/table. Once done, click on the Save Offline button.

The system will show a pop-up box with the summary of the changes. In this summary, you will notice that the Supplier and Customer penalty rows still have an amount. This can be disregarded, as this will not be taken into consideration provided you have made the necessary adjustments in the appropriate fields in the Penalty section/table.

Confirm booking info

Room Type	1 Queen Bed, Nonsmoking
Room Occupancy	2 Adult/s
Check In Date:	04 Aug 2023

Supplier Penalty: 81.5900 USD
Customer Penalty: 104.9554 USD

An extra payment of 209.91 USD is required to complete the booking:

Charge this amount to a new credit card

Cancel Confirm

Once the penalties are adjusted in the Penalties section/table, there is no longer any need to adjust the Cancellation Penalties in the Cancellation Policy link in Amend Offline. The adjustments made in the Penalties section/table will be what will apply and be sent to SAP.

Once the process is finalized, these changes will adjust in the Booking History section and in the Proforma invoice, as applicable. These changes will be synchronized in DataLake, which will allow SAP to issue the appropriate invoices.

Frequently Asked Questions

1. When are the penalty fees in the Penalties section/table in Amend Offline adjusted?

You can adjust the penalty fees in the penalties section for any offline amendments, wherein there are amendment penalties that apply.

You can also adjust the penalty fees for a cancelled booking, via Amend Offline. For example, the booking was already cancelled with charges and you would need to adjust the cancellation penalty fees, you can also do it afterwards via Amend Offline.

2. If we are cancelling a booking with waiver, do we use Cancel Offline or do we just adjust the penalty in Amend Offline?

If you are cancelling a booking with waiver for the first time, you can cancel and adjust the cancellation penalties via Cancel Offline.

However, if the booking is already cancelled and you need to adjust the cancellation penalty, you can go to Amend Offline and adjust the cancellation penalties, if applicable.

3. Will this apply or be available for pre-check in booking that do not have penalties yet?

No, this will not apply. Further, the Penalty section/table will give a message “No penalties applied.”

Penalties

No penalties applied

4. Once the penalty amounts have been changed, is it possible to be changed again?

If there is a need to do so, it is possible to change the penalty amounts again. A team member will just need to go to Amend Offline again and adjust the necessary.

5. Is it possible to add additional penalty fees or policies, using this new functionality?

No, not yet. However, the developers are looking at how it can be added on a later stage.

6. In case we processed a partial refund or lowering of the cost/price, and the booking has a commission, do we need to manually adjust the commission, or it can be adjusted automatically by the system?

No, it manually needs to be adjusted, based on the customer’s need.
